Champion Meat Market

Boxing Contest Champion, July 1

Frank Liddle of Magrath and Peter Aitchison of Lethbridge will furnish the main bout in a boxing match to be held in the Community Hall, going ten rounds. Collins and Doyle of Champion will furnish a preliminary, while Len Langdon of Champion and Ray Adamson of Stirling are billed for a four round semi-windup. Theresa Vaughn of Vulcan and Jim Stanmore of Lethbridge will also box three rounds, making a real bill.

Miss May Ulrich Showered at Macleod

Mrs. Wm. Armer, Macleod, and her daughter, Mrs. T. F. Dixon, Lethbridge, were hostesses at the home of the former on Thursday evening at a delightful shower party, in honor of Miss May Ulrich, a prospective July bride. The house was beautifully decorated with lilacs, columbines, iris and daisies.

There were about 20 young lady friends of the guest of honor present, and a jolly evening was spent in playing bridge, the winner being Miss Margaret Reid, and the consolation falling to Miss Florence McKenzie. After partaking of delicious refreshments, little Ethel Armer appeared on the scene with a doll's carriage and trailer laden with a wonderful variety of handsome gifts. The carriage was decorated with ribbons and on top was a miniature bride, groom and clergyman, depicting the wedding ceremony.—Lethbridge Herald.

Slim Audience Attends W. I. Feature

Counter attractions and the near approach of the big holiday resulted in a slim audience greeting Messrs. Seymour and Galbraith on Tuesday evening. These present, however, were treated to two fine and interesting addresses, providing much material for thought especially along town planning lines and also the ease with which the farm home may be made very attractive. Threatening rain forced visitors from Carmangay to return home for fear of impassable roads. Lunch was served at the close of the meeting. Mrs. J. N. Beaubier was in the chair.

Golden Rule W. I. Entertains Successfully

A number of W. I. members from Champion visited Alston on Wednesday where the Golden Rule W. I. was entertaining. Reid, Hill, Vulcan, Carmangay and Champion were the branches invited. A banquet was served in the basement of the community hall and a splendid afternoon was spent.

Make It Two Big Days

Everything is in readiness for the big days on July 1st and 2nd, and all that remains in doubt is the weather, which at present promises to be fine. A lot of hard work has been accomplished in the preparation of the grounds, which should be in excellent condition. The ladies of the Royal Purple will serve refreshments during the two days.

Don't Fail to Be In Big Parade

Don't forget that the parade starts 12 o'clock noon, Monday, July 1st. Vulcan band will head it. Decorate yourself, your car or your truck and help swell the crowd. Liberal prizes offered.

Champion Bride-Elect Guest of Honor

A miscellaneous shower was held in honor of Miss Smithson, a bride-elect of the coming month in the tearage on Wednesday evening. Mrs. J. M. Moffatt made the presentation address which was accompanied by many beautiful and useful gifts, indicating the esteem in which Miss Smithson was held during the years she has been on the school staff here. Miss Smithson responded, thanking those who had shown her such kindness and expressing her regret at leaving Champion. A delicious lunch was served, sweet peas, tulips and smilax were used in the decorations.

"Lives There a Man With Soul So Dead?"

Peonies planted on the grave of George Ellis in the local cemetery were dug up and other plants trampled by the ghouls responsible for this disgraceful desecration. It is to be hoped the offenders were children of irresponsible age. It is hard to believe that any one of mature years could be so inexpressibly indecent.

Williamson—Baxter

A quiet but pretty wedding was performed in the presence of a number of friends, at the residence of the officiating clergyman, Rev. E. G. Ford, on Saturday afternoon, June 22, when Miss Lorena Harriet Baxter of Carmangay, became the bride of Mr. Harold Robert Williamson of Champion. Mr. and Mrs. Williamson will reside at Champion.

Well Known Barrister To Open Office Here

Joseph Hicks barrister, of Barons, formerly of Macleod, will visit Champion on regular dates, which will be announced later, together with the place where he may be met for consultation. Until arrangements are made Mr. Hicks may be found at the Savoy hotel. Persons desiring legal advice or services of counsel may communicate either by letter or telephone to Barons.

A new sidewalk to the community hall, including two cement crossings, is one of the notable improvements of recent origin. The old material taken up was transferred to a location between main street and E. C. Alcock's residence. The streets are in the best condition they have been for a very long time, having been dragged after the recent rain before becoming too dry.

Mr. and Mrs. J. W. Madden and daughter of Hollywood, California were visiting old friends in the district last Friday. They have already travelled over 3000 miles and will return by way of Waterton Lake, Glacier Park and Salt Lake City.

NOTES AND COMMENT.

Roadwork is in progress all over the country and it is worthy of note that the grades going up are very close to a uniform design and finish. The old idea of a different type of road grade in every division of a municipal district is giving way to a better method in which government regulations are the mark aimed at is prevailing in almost every part of the country.

The wider a person's travels may extend only tends to the conclusion that this section of the country is not excelled anywhere when good crops are in question, while but few districts can equal the display made here. In some parts of the country too much moisture has had a reverse effect on the growing crops, while in other territories too little rain has resulted in curtailing progress of grain fields. This section would appear to be as highly favored in the matter of weather conditions as is ordinarily possible with the result that the grain fields are looking wonderfully well and promise a splendid crop.

The result of the recent tariff legislation in the United States will be watched with unusual interest. To legislation one class of people from adversity to prosperity is a difficult matter and so far the high tariff on agricultural products does not seem to have benefited the farming community in the country south of us. Will the new legislation fare any better.

The recent weakness in oil shares did not come as a complete surprise to the dealer in stocks of this kind. Speculation is very apt to run high and rash stock issues are prices away beyond their actual value and reactions are bound to occur with regularity in such instances. That Alberta oils will be more stable in prices in the not distant future is generally accepted as a certainty.

The fact cannot be overlooked that to interfere by law with established trade practices is frequently a dangerous proposition. If the wheat pool handled the whole Canadian crop under the assurance that the entire proceeds less actual marketing cost, found its way back to the pockets of the farmer, any interference of any sort would, of course, be absolutely uncalled for and unwarranted. But as long as a large proportion of our wheat goes to market through the medium of the general grain trade, it is difficult to permit trade practices to operate unhampered which appear to be detrimental to the grower. The whole question of mixing is very much involved and expert opinion, even where it is apparently honestly given and without any suspicion of special pleading, is far from being unanimous. It cannot fairly

be said that the present inquiry has brought to light anything very conclusive on the subject, all of which would lead the disinterested observer to the conclusion that the Parliament might advantageously proceed with care until the matter has been more thoroughly investigated, which obviously cannot be done so late in the session when the members are anxious to return to their homes.—Farm and Ranch Review.

Calgary Exhibition And Stampede July 8-13

Prizes are also being offered for dairy products, agricultural products, purchased goods, fancy work, art, cooking, school work, Indian work. In the grains and seed department, a number of valuable trophies, supported by generous cash prizes is being offered, and a big entry list in these classes is expected.

Never before in the history of championship contests has as much money been offered for a bronk riding contest as is being offered at the Calgary Exhibition and Stampede this year. In the bronk riding championship with saddle, \$1,000 alone is being offered and, spurred on by the fact that during the last six years, Canadian and American cowboys have just about broken even in the number of championships won, the "top" hands of each country will make an extra special effort to carry off the money, titles and the beautiful trophies that go with them.

No sooner had the exhibition directors announced that it had been decided to raise first money in the open bronk riding contest to \$1,200 when I. W. C. Solloway of the Solloway Mills, Ltd., stock brokers of Calgary stated that he was going to donate \$1,125 to be added to the \$1,000 prize list. The fine gift was received with enthusiasm, and a new high record of \$2,300 for first money in the open bronk riding contest was set.

Other Stampede events, for which valuable cash prizes and trophies will be awarded, include bareback bronk riding, wild steer and wild cow riding, calf roping, steer decorating, chuck wagon races, wild horse race, Indian pony races, democrat races, California cart race, Indian relay races, and in fact every contest known to the cowboy world.

Other events include seven running races every afternoon, vaudeville acts, band concerts by the famous Princess Pat's band of Winnipeg, fireworks display, Johnny J. Jones midway, and many other educational and entertainment features.

At no other place in the world can such wonderful free features be seen, such as the morning western street displays Tuesday and Thursday mornings, the cowboy and old timers' ball Friday night, and the marvelous opening feature, the monster Stampede parade, which starts Monday morning at 10 o'clock on July 8.

Champion, Alberta

to be called the Willington Building has been provided this year, and a good start has been made towards the paving of the main roads and walks within the exhibition grounds.

Special preparations have been made to accommodate the thousands of visitors expected in Calgary during Stampede week. The Palliser Hotel officials are adding four more storeys to the big hotel at a cost of nearly \$1,500,000, and two of them at least will be ready for Stampede week. In addition a special accommodation bureau will list the space available at 25 other hotels, and thousands of private homes throughout the city, while two modern automobile tourist camps and an up to date air port will also be available.

Exhibition and Stampede visitors should plan to enjoy a few days at Banff and Lake Louise, Canada's famous mountain resorts.

Special passenger fares will be in force from Saskatchewan, Alberta and British Columbia mainland points and special tourist rates are in force from anywhere to Banff and Lake Louise with stop over at Calgary.

Calgary will be en fete for the big western celebration this year, and Mayor F. E. Osborne, President N. J. Christie and the directors of the exhibition extend a hearty welcome to all visitors.

Exhibition entries close June 22nd, and Stampede entries close July 1st. Prize lists may be obtained on application to Guy Weadick, manager of the Stampede, or E. L. Richardson, General Manager, Exhibition Grounds, Calgary, Alberta.

NOTICE TO CREDITORS AND CLAIMANTS

In the Estate of JOHN WILLIAM FATH, late of Champion, Alberta, Deceased.

NOTICE IS HEREBY GIVEN that all persons having a claim upon the estate of the late John William Fath who died on or about the 6th day of May, 1929, are required to send to the undersigned solicitor for the executor by the 30th of July, 1929, a full statement fully verified of their claims and any securities held by them and that after that date the executors will distribute the assets of the deceased to the parties entitled thereto, having regard only to the claims of which notice has been so filed or brought to their knowledge.

EVERYTHING IN HARDWARE

Pull Your Discs with Three-Fuel Power

Built for tractor power, the one-way-disc pulled by a three-fuel Hart-Parr cuts to full width at any depth. You need not just skim your land, for Hart-Parr power enables you to set the plow down where it belongs and keep it there. Two and even three one-way-disc plows are common behind the larger Hart-Pars. They pay their way. Hart-Parr is the one tractor that develops tremendous power from gasoline, kerosene or distillate. We are now showing the improved 1929 line equipped with three forward speeds to speed up hauling and field work. Hart-Pars are built for small, medium or large farms. Come in and see them.

5 Models of Combines

That Keep Running
Keep Threshing
Keep Saving

With Many Combinations of Headers, Separators, and Windrow Pick-ups, to suit all farm conditions of Soil, Crop and Power

Here is a complete line of Combines — combined harvester-threshers — that gives the grain farmer in this community a range of sizes never offered before.

It provides a line from which you can select the combination of header and thresher size that is suited to your farm whether it is large or small, rolling or prairie land, sandy or heavy soil, suited to your crop, whether it is light or heavy straw, tangled or straight standing, weedy or clean, suited to your power, whether it is small or large.

More than all that, we will assist you in working out the combination that is best suited to your conditions.

In keeping with the policy of the Nichols & Shepard Company, "More than 4 score years of 4 square deeling" — we want to furnish you the machine that will give you the best service for your crop.

It will be found in the Nichols & Shepard Line of Combines — the combines that are light of draft, ample in power, sure in threshing, reliable, that enable you to harvest your crop easily and fast, and deliver it clean, bright and merchantable. See us for full information.

Model A Win. reapers and Windrow Pick Ups for all sizes
Model B 10'-12'-14'
Model C 15' Also Threshers 4 Sizes
Model D 16 1/2'-20' Tractors

Aikins Residential School For Winnipeg

Predating by the bequest of \$100,000 in the will of the late Sir James Aikins, K. C., former lieutenant-governor of Manitoba, who conceived the project, a new residential school for girls will be opened in Winnipeg next September under the direction of the United Church of Canada, open to children of parents of any denomination throughout the West. This new fashionable River Road School, as it will be known, is to occupy the residence of the late Sir James and that of his son, G. H. Aikins, K. C., comprising in all eight acres of property on the banks of the Assiniboine River.

Many outstanding Westerners are identified with the new school promising strong support for the organization. The Board of Trustees, under the able chairmanship of G. H. Aikins, K. C., consists of James A. Richardson, D. C. Coleman, Isaac Pittblado, K. C., Dr. John MacKay, Dr. J. A. Cormie, Dr. W. Aikins, Mrs. David Watt and Mrs. R. F. Mac Williams, Sec., Patrons are Lieutenant-Governor J. D. McGregor of Manitoba, Premier Bracken and Sir Daniel McMillan.

Miss Joan Foster, M. A. (McGill B. A. Oxon), a daughter of Senator W. E. Foster, former Premier of New Brunswick, has been appointed principal and a strong teaching staff under her direction is being engaged. The Board of Trustees has been appointed by the executive of the general council of the United Church, but the school will not be dominated by denominational aims.

A Swiss savant states that if a man wishes to learn the character of the girl he wants to marry he should watch her peeling, cleaning and cooking potatoes. If she peels the potatoes, cutting thick slices, she is extravagant. If she leaves the eyes she is lazy. If she uses a great deal of fat while cooking the vegetables she is greedy, and if she alleges it to lure she is negligent. On the other hand, the savant declares, if the girl avoids these revolting pitfalls, the husband should marry her whether she is rich or poor, ugly or pretty, for she will prove a good friend and wife and bring him prosperity and happiness.

Apply the Same Principle

During recent years there has been a decidedly better understanding between the east and the west of Canada, and between the Maritime Provinces and the rest of the Dominion, based on closer acquaintance and knowledge of the problems confronting the people in each of the major sections of this far-flung country. There is today far less of sectionalism, prejudice and misunderstanding than in any previous period of Canada's history, and, happily, this spirit of goodwill and co-operation is growing more and more pronounced.

Anything and everything that will tend to promote this wider knowledge and better understanding should be done and encouraged. We believe goodwill and understanding can only be brought about and maintained by frankness and the dissemination of knowledge. That is, to state the people must be made and kept acquainted with actual facts about the west, and informed as to the views, opinions and ambitions of the West, and, vice versa, western people must be informed in like manner about the east. And it is particularly the duty of the newspapers of the Dominion to discharge this patriotic duty.

It is in the performance of that duty we would draw attention to a recent editorial article appearing in "The Financial Times," Montreal, dealing with the subject of the revision of the Grain Act. To much of that article no exception can be taken, but the whole difficulty is that it is based upon an entirely wrong conception, which fact is made abundantly evident in the concluding sentence of the article, as follows: "The important consideration is to protect the buyer, which will at the same time be a safeguard on the dependable reputation of Canadian wheat in all markets."

This may be the eastern viewpoint, but we submit the western viewpoint, and that is that the "producer" should be substituted for the "buyer" in the sentence quoted.

The person entitled to receive first consideration in matters affecting the grading, mixing, transportation of wheat is the man who grows the wheat, not the man who buys it, or transports it, or mills it into flour. The status of Canadian wheat in the markets of the world must remain unimpaired at a high standard, not so much for the benefit of and protection of the British or foreign buyers, but for the benefit of the Canadian farmer who grows the wheat in order that he may obtain full value for his product and ample reward for his labor.

Submitting the western viewpoint for the benefit of eastern people, we may well be asked "The Financial Times," and other exponents of its dictum that in matters affecting the grain trade of Canada the important consideration "is to protect the buyer," whether it, and they, are equally prepared to accept the principle that, in all matters affecting, say the customs tariff, the important consideration is to protect, not the manufacturer of the finished product, but the consumer of the product, the people who "buy" the products of these factories?

If it is the "buyer" of the products of the farm who are deserving of first consideration, and who above all should be protected, then pure logic must force acceptance of the principle that the "producers" of the products of the factories who must likewise be given first consideration, and their interests recognized and protected first and foremost in all matters of tariff or other legislation affecting such industries.

In other words, according to the eastern view, as they would apply it to the farmer, it is not the industry that should be protected, or those who have made investments in industry and labor in it, but the buyers of the products created by the industry. The truth is, however, that when those same interests advance tariff and other arguments in their own behalf they directly reverse the principle, and resolutely contend that it is the producing manufacturers who must receive first consideration and be accorded protection, rather than the buyers, i.e., the consuming masses of the Dominion.

Good understanding and complete national co-operation between east and west cannot be built up, unless the principle to apply on one principle toward western agricultural industry and an opposing principle to eastern manufacturing industry. The same principle must be applied both east and west.

Discover Radium Mines

Find in England Has Already Yielded \$1,000,000 Worth

Radium mines are not discovered every day, but some meteorologists, while exploring a lead near Mallock, England, had their lights suddenly extinguished by bad atmospheric conditions. They saw ahead of them a dimly lighted cave, and a sample of earth taken from the cave was sent to Mme. Curie, who declared it to contain radium. The mine and estate was then bought for \$150,000. Further exploration it is stated, has resulted in the discovery of another radio active mine, which is now to be exploited. The estimated value of the radium already found is \$5,000.

Half of the world's supply of aluminum comes from Arkansas. Aluminum is never found in its metallic state, but is always combined with bauxite, granite, felspar, mica, etc.

Settlement Scheme Nears End

Three Thousand Family Settlement Plan Has Been a Success

In a few weeks the 3,000 family settlement scheme will end and no project of like nature will take its place. Hon. Robert Forke, Minister of Immigration, stated recently. There was no desire to make the project an endless one by replacing settlers who had abandoned farms, he said.

The project had been successful in every respect, and Canada had acquired an increase of about 17,000 souls through it. Already 3,250 families had been brought to Canada under the scheme; a total of 329 families had abandoned their farms for various reasons; 34 had been deported; 72 had returned to Great Britain of their own accord, while 414 remained in their other employment, either in agriculture or other work.

WHAT OUR GIRLS NEED

When Languid, Anaemic and Feeling Run Down

When a girl grows languid, dull, listless, when her complexion becomes pale, and she becomes pale, you may be sure that the cause is anaemia, or impoverished blood. The red color of the blood is caused by the presence in it of millions of tiny red corpuscles. It is these tiny bodies that carry the life-giving oxygen to the blood to the tissues. They also carry the waste products of the body out of the blood. When a girl's blood is deficient in these red corpuscles her body is under-nourished, her nerves are starved, and there is serious danger of a decline. What is needed is an improvement in the quality of the blood, and it is a scientific fact that a course of Dr. Williams' Pink Pills will so enrich and purify the blood that all traces of anaemia and its accompanying weaknesses will disappear. As an evidence of the value of Dr. Williams' Pink Pills in cases of this kind, Mrs. John Pinn, of London, P.E.I., says: "I am glad to take this opportunity of recommending Dr. Williams' Pink Pills. My daughter was in a badly run down condition; very pale, nervous, and much under weight. We tried several medicines, but they did not seem to do her any good. I decided to give her Dr. Williams' Pink Pills. After a few days she began to improve, and after the use of a few boxes she had gained weight and her appetite improved. She had a better color in her cheeks than she had for many months. I am glad to say that she has had no further trouble with her former good health. I would advise every mother of young girls to give them Dr. Williams' Pink Pills at the first sign of an anaemic condition. You can get these pills from any medicine dealer or by mail at 50c a box. Dr. Williams' Medicine Co., Brockville, Ont."

Zeppelin's Flight Cancelled

Atlantic Trip Of German Dirigible Postponed Until 1920

A special telegram to the Telegraph Union from Friedrichshafen stated that the trans-Atlantic flight to America of the dirigible Graf Zeppelin had been postponed until 1920. A flight around the world for the big airship was scheduled to start July 15. The Graf Zeppelin's last attempt to fly to America ended on May 17, when crippled motors forced her to turn back over Spain.

Capital invested in the world's gas industry now exceeds \$500,000,000.

Only Nation Without Arms Says Minister Of Defence

Dr. Wilhelm Groener, minister of defence in a speech reviewing Germany's military policy charged that the states victorious in the world war have done nothing, save disarmament lists and endeavor to show that it was absurd for the allies to claim they could not disarm until they were sure of not being attacked by Germany.

Speaking of present military forecasts he said: "France has, on European soil, 27 divisions; Belgium six; Poland 26, and Czechoslovakia 26 brigades, a total of 79 divisions compared with Germany's seven. Who, I ask, needs security? I can't leave unmentioned that besides these troops, the other nations also possess aviation squadrons, heavy artillery and powerful reserves of trained men and was material of a kind we do not possess at all."

Double Jeopardy

A correspondent accuses us that the following notice has been posted about an electric station in Donegal: "Beware! To touch these wires is instant death. Anyone found doing so will be prosecuted."

With a population that ranks 26th among the countries of the world Canada is fifth in total exports and third in total turnover of trade.

Keep Minard's in the Medicine chest.

Lydia E. Pinkham's Vegetable Compound

Protects Skin Against Fire

Modern Liners Have Device For Instant Detection Of Smoke

The captain on a modern liner can look into a cabinet and tell at a glance whether fire has broken out, and also in what part of the vessel. Go into the hold of any properly equipped ship and light a cigar; in less than five minutes the captain of the bridge can tell where you are smoking. In the captain's cabinet is a series of glass-fronted tubes, one for each hold, through which air is constantly flowing. Ordinarily you can see nothing—all is black; but with the faintest trace of smoke from the hold there suddenly appears against this black background a light, quivering thread of blue. For within the tube is a slanted bulb of brilliant light. As long as the air current is pure there is nothing to illuminate; but when a whiff of smoke flows through, the light rays make it show up against the black background like a meteor.

There are other devices and services also—devices that betray a fire at the slightest change in temperature. It is after the ship has performed its part that the modern fire extinguishers are brought into play. These are pipes which by the simple turning of a valve, without opening the hatch or the hold in which the fire has started, can cut it hold with live steam, in which no fire can live. Or one can flood the hold through the same pipes with carbon dioxide, and again the fire is out, with negative damage to most classes of cargo. Or the hold can be flooded with a substance that flows over the flames like a blanket on thin man and smothers them.

Wise and experienced mothers know that their children are troubled with worms and lose no time in applying Miller's Worm Powder, an effective vermifuge. It is absolute in clearing the system of worms and restoring normal conditions without which there can be no comfort for the child, and of robust growth. It is a most trustworthy worm exterminator.

Revising Quota Laws

U.S. Will Admit Double Number Of British Immigrants

Nearly twice as many Britons yearly may enter the U.S. under the immigration quota after July 1. The Senate refused to pass the national origin clause of the immigration act of 1921 from going into effect on that date.

It follows from the action of the Senate that the quotas of the various nations which send immigrants to the U.S. will be revised. The greatest changes will be in the quotas affecting Great Britain and Northern Ireland, Germany and the Scandinavian countries.

British immigrants to the number of 55,721 will be permitted to enter the country as against the old number of 34,007.

Unless worms be expelled from the system, no child can be healthy. Mother Gray's Worm Exterminator is an excellent medicine for children's worms.

Bad Either Way

Scot (to friend while visiting London): "Now, nun, I can't stand taxi cabs! When I sit in 'em back to the driver, it makes me feel sick, and when I sit in 'em face to the taxi-driver, it makes me feel like better."

Professor—Go your fastest my man! I am in a desperate hurry. Taxi Driver (after speeling along for 30 minutes)—Say, you forgot to tell me where we are going.

Soft corners are difficult to eradicate, but Holloway's Keno Remover will draw them out painlessly.

Most of Canada's gold bullion is now refined in the Royal Mint at Ottawa.

Minard's Liniment for sick animals.

Speckled Trout For

Jasper Park Lakes

Anglers May Expect Real Sport In Canada's Largest Mountain Playground

So successful was the experiment made by the Dominion Government last year in stocking Minard Lake, in Jasper National Park, with trout, that a quarter of a million more fry are now growing up in the hatchery there, and will be turned out in big, great glacial lakes in a few weeks time.

As eggs, the 350,000 travelled to Jasper from Cresco, Pennsylvania, last winter, and so carefully was the precious freight handled by the Canadian National Express that only 70 of the eggs failed to hatch. Arrived at Jasper, the eggs were given into the care of Warden Herbert Davis, who is carefully nursing them along. He feeds the multitude four pounds of chopped liver a day and keeps the water moving and at a proper temperature.

Early in June the fingerlings will be taken out of their trays and transported in time to Minard. "The fish put in there last year," says R. Langford, supervising warden, have done marvellously well and have grown to a good size. They and the new batch are speckled trout. We expect a shipment of rainbow trout in a few weeks for Cabin Lake.

For sunburn—apply Minard's Liniment.

Canadian Jersey Breeders

Good Market In States For Canadian Bred Jersey Cattle

Writing from Tupelo, Mississippi, W. Elmo Ashton, fieldman for the Canadian Jersey Breeders' Association, points out that it is apparent to anyone going through the States of Georgia, North and South Carolina, Mississippi and Alabama that the southern states offer a great market for Canadian Jerseys. The northern and half these states have taken from Canada over 300 head of young bulls and heifers.

Wetched From Asthma. Strength of body and vigor of mind are inevitably impaired by the visitations of asthma. Who can live under the cloud of recurring attacks and keep body and mind at their full efficiency? Dr. J. D. Kellogg's Asthma Remedy dispels the cloud by removing the cause. It does relieve. It does restore the sufferer to normal bodily trim and mental happiness.

Small Churches In England

What is said to be the smallest ecclesiastical building in Britain is St. Margaret's Chapel, Birmingham. This little church is only 10½ by 10½ feet. Dorset church at Winterborne Thompson, is 22 by 14 feet. Churches at Calne and St. Lawrence are also small, having less than 420 square feet of space.

Emerald Lake, Yoho Park

Beautiful Emerald lake, in Yoho national park, British Columbia, was first visited by T. W. Wilson in 1874 while searching for strack pack horses. As far as is known, he was the first white man to visit this lake.

I've forgotten

I never had any nerves

Your doctor will tell you how the act of chewing relaxes and soothes strained nerves, and how the healthy cleansing action of Wrigley's... makes and tones you up all around. Aids digestion.

Sheet Glass Factory

Calgary Is Well Selected As Suitable Place For Establishing Plant

Calgary is very suitable for the establishment of a sheet glass factory, and it may be chosen as the site for such a unit, according to F. S. Hobbs, of Toronto, vice president of the Consolidated Plate Glass Company, who has been inspecting various cities in Western Canada with a view to locating a branch plant. A big business is being done in plate glass in the Prairie Provinces, he said, making it advisable for the firm to enlarge its present holdings.

For Cataract—It is one of the chief recommendations of Dr. Thomas' Electric Oil that it can be used internally with as much success as externally. Sufferers from cataract will find that the Oil when used according to directions will give prompt relief. Many sufferers from this ailment have found relief in the Oil and have sent testimonials.

Believe It Or Not

A man, formerly called Mrs. Sarah Blair, now dead, carved her initials and the year "1862," 67 years ago, has been found by her daughter, Miss Mary Blair, within a mile of the original Blair home at Scottsburg, Ind.

Ginsey, considered one of the most weather-beaten places in northern Norway, has a new church. To prevent its being blown away it is anchored to the rocks by heavy chains.

In The Locker Room

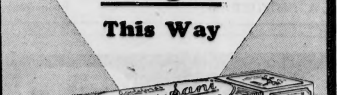

Minard's is the stand-by of those who like to care for their feet, and suffer from stiffness and aching muscles.

WORLD HAPPENINGS BRIEFLY TOLD

Montreal contemplates celebrating its diamond jubilee on July 15, 1900. It was announced at Winnipeg by Premier John Bracken.

The London Daily Sketch said Premier MacDonald had refused Lord Trenchard, former British chief, permission to enter Great Britain as he requested recently.

The Japanese "navy" training cruiser "Akama" and "Iwate" will visit Vancouver on August 10-12. It was stated at the Japanese consulate here.

Albert Voigt, a German, has left Seward, Alaska, in a 16-foot, collapsible whale skin boat for New York. He hopes to complete his 6,700-mile trip in six months.

Charles Colchrooke Patterson, eldest son of the late Hon. J. C. Patterson, former, Ontario governor of Manitoba, is dead. He was born in Ottawa, in 1868, and for a number of years was his father's secretary.

Flight tests will soon be made of television apparatus developed by its inventor, C. Francis Jenkins, Washington physicist, to reproduce conditions as seen from the aeroplane, on a screen miles away.

Japan's co-operation in any disarmament program requires that Premier Hamaguchi, Mr. Tanaka and Ambassador Dawes have begun has been promised by Premier Tanaka.

France is preparing to bring into force a wide scheme of social insurance. It will cover sickness, old-age incapacity, maternity benefits and, to a certain extent, unemployment.

Captain A. N. Farnes, inspector in the Royal Canadian Mounted Police, who has been stationed in Vancouver for some time, has been appointed inspector in charge of the Arctic sub-district, with headquarters at Herschel Island.

Representatives of all the provinces will be called together by the Federal Government next autumn to consider the federal and provincial financial problems, according to intimations received at the Parliament buildings, Victoria.

German Invent New Ship

Sister and Cheaper Than Existing Models Is Claim

A new kind of ship is being built by a German ship building company, which, it is expected, will be safer and more economical than existing models. The feature of the invention is the unusual shape of the stern, designed to press water under rather than to each side, and to reduce friction on the sides. It is said to cause the water to flow by the shortest route from bow to stern. Three high-speed towing trawlers recently have been built by Deschamps on the new principle. The builders announce that not only is the fuel consumption reduced 25 per cent. compared with other vessels of equal size, but that rolling and pitching even in heavy seas is reduced to an extent not previously attained. Test trips also show excellent steering capacities.

A Severe Attack of Dysentery Check by 4 Doses

Mr. J. Burtonwood, 620-22nd St. W., Saskatoon, Kas., writes: "My child, when only seven months old, had a very severe attack of dysentery, and after three days treatment with other things, he was still suffering."

On this day his mother gave him four doses of Dr. Fowler's. In thirty hours, he was better, and in four days he was completely cured."

"We both highly recommend Dr. Fowler's remedy for all cases of dysentery. This medicine has been on the market for over 30 years, and is sold only by The T. Millburn Co., Ltd., Toronto, Ont."

W. N. U. 1791

Art Of B.C. Indians Similar To That Of South Seas

Who takes one most of all in looking at the arts and crafts of the British Columbia Indians is the general "Polynesian" character of the designs.

The totem poles are obviously related to those of New Zealand, the carvings of canoes, and the designs of the British Columbia Indians are in some of the stone carvings, there are hints of Easter Island.

On the other hand, the carvings in ivory and horn appear to link on to the early Chinese jades.

If these impressions are just they support the suggestion which has been made of a "Pacific" school of art, antedating the earliest Chinese art we know; and we might venture that whereas partly Greek and Indian canoes, Chinese art went on developing, the arts and crafts of British Columbia remained more or less in the Pacific phase.

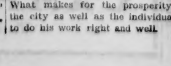

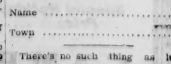

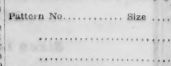

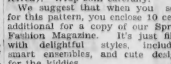

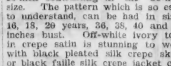

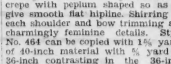

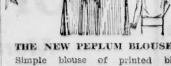

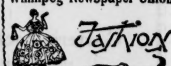

It is said that the Indians of British Columbia differ from those of other parts of Canada, and the United States by a definite Mongolian influence.

Further it is known that the Indians were early visitors to British Columbia, and, sure enough, in the carved shafts objects there are distinct similarities with "Scythian" art.

Owing, possibly, to the complete absence of pottery among these Indians, basket weaving appears to be the art that developed most consistently, baskets closely woven of cedar bark being used for cooking and carrying water; and their designs, generally geometrical, but occasionally representing natural forms—as of the skull gull—in a convention arising out of weaving.

Throwing light upon the supposed origin of pottery—out of baskets—making first by doubling the basket with clay, and then by using clay alone, the decorative being transferred from one medium to the other.

Winnipeg Newspaper Union

Recipes For This Week

(By Betty Barclay)

BOSTON STRENGTH BROWN

BREAD

1 cup Graham flour.

1 cup corn meal.

1 cup soft butter.

1 teaspoon salt.

1 teaspoon soda.

1 teaspoon baking powder.

5 cup sugar or molasses.

2 cups sour milk.

Mix and sift the dry ingredients.

Mix milk and molasses and add fat.

When well mixed, beat in molasses half cup. Cover tightly and steam for three hours. Unmold and place in moderate oven for 15 minutes. Serve hot or cold.

FRUIT CREAM CUSTARD

4 oranges.

2 eggs.

1 cup sugar.

2 teaspoons flour.

1/2 teaspoon salt.

2 cups milk.

1/2 teaspoon vanilla.

5 tablespoons sugar.

Beat egg yolks, add 1/2 cup sugar, four and a half cups milk.

Add milk and cook in double boiler until thick enough to coat spoon.

Cool, add vanilla and turn into serving dish containing peeled and sliced oranges. Beat egg-whites with 5 tablespoons sugar. Heat on top of custard and serve.

Canadian Delegates

For Press Conference

Dominion Will Have Largest Representation At Imperial Meet Next Year

J. H. Woods, managing editor of the Herald, Calgary, Alta., recently called for London, where he will consult with the council of the Empire Press Union in connection with the Canadian contingent of press delegates to the Imperial Press Conference, being held next year.

Mr. Woods said that Canada will be sending 20 delegates to represent the 60 members of the Union in Canada.

The last conference was held in Australia in 1925, and the one previous to that, in 1920, was held in Canada.

The Imperial Press Conference is being held in London, England, in June of next year.

How Names Were Given

Europe is derived from Europa, a Greek mythology a woman who was carried off by Jupiter, who came to her disguised in the form of a white bull and bore her to the island of Crete. The Greek word was said to be derived from the Semitic word meaning darkness, evening, sunset.

Asia is said to derive its name from the Semitic word "asu" meaning going forth, or rise of the sun.

Trail Riding In Rockies

Trail riding is one of the favorite pastimes of the national park in the Canadian Rockies. This is one of the best ways of seeing all, or most of the points of interest. In Banff, trail riding is a popular sport, and many parties may be taken by the visitor on horses trained to the work and altogether trustworthy.

Sir Esme Howard, British Ambassador to the United States, has announced that he will not sign any more liquor regulations for the embassy at Washington, thereby vouching the diplomatic privilege of importing liquors.

The "Canadian Mediterranean"

Montreal Journal Sees Important Future For The I.L.R.

Commenting on the completion of the Hudson Bay Railway, Le Devoir of Montreal, edited by Mr. Henri Bourassa, expresses the belief that the new line to the Canadian Mediterranean will prove a valuable addition to Canada's transportation system, not only as a development road, but as an export route.

The richness of the country through which the railway passes has already been proved, Le Devoir writes, forecasting large mineral, pulp and paper, and metallurgical establishments along the road.

It applauds also the manner in which the Government is managing the deal in the availability of the Bay and concludes: "It is improbable that the route will become a serious competitor of the St. Lawrence, but it is sure to be useful, and will become so more and more as seamen become familiar with navigation conditions."

Hunts Grizzly In Spring

Hunting grizzly bear in the wild and good sport, according to Walter W. Lang, of Milwaukee, who has returned from the Canoe River country out of Mount Robson, B.C., with one grizzly hide and a couple of brown bears to his credit. It is Mr. Lang's fourth year in this part of the Rockies. He was accompanied on his hunt by Richard Lacey, also of Milwaukee.

Large Area Photographed

Thirty-three thousand, eight hundred square miles were covered in Canada during the season of 1928 by oblique aerial photographs taken by the Royal Canadian Air Force for the Topographical Survey, Department of the Interior.

Golden Text: "I have loved thee with an everlasting love; therefore with lovingkindness have I drawn thee."—Jeremiah 31:3.

How many Christians there are who, like those priests, are miserable because unsatisfied. While on every hand opportunities call for the devotion of their energies, they are unable to lay hold of them.—Stuart Holden.

There ever was a suffering servant, despised and rejected of men, that servant is the Jewish people.—Jewish Chronicle.

Take the task he needs you gladly. Let him work your pleasure be. Answer quickly, when he calleth.

"Here am I, send me, send me."—Daniel March.

With bonds and room, and evil will The world requests its prophets, all.—Whittier.

He who shows me the achievements of a brother man touches my soul, and by the force of the altar.—Carlyle.

We are but poor judges of form or content, and what is barren with perfect beauty in God's eyes may be, to our eyes, plain and empty in itself.—Alexander Macaren.

God's goodness hath been great to Montreal, and we are all his children.—Whittier.

Let never day nor night ungrateful pass.

Let me remember what the Lord hath done.—Shakespeare.

Honor Belongs To England

Freshman Did Not Originate Idea Of Artificial Silk

Most of the credit for the idea of manufacturing artificial silk goes to France, and the honor has usually been given to Renoussier, a French naturalist. Actually, the first suggestion was made by an Englishman, Dr. Robert Hook. In 1661 he published a book, "Micrographia," in which he described a microscopic examination of real silk, and suggested the possibility of producing a similar thread by mechanical means. The first machine to produce an artificial thread was made in England. In 1840, Mr. Louis Schwabe took out the first patent and erected his machine, embodying spinnerettes, in Manchester, the product failed. But attract and Schwabe committed suicide three years later. Today the spinnerette is in full use, and 135,000,000 is invested in the industry in England alone.

University of Alberta

The University of Alberta has just celebrated its twenty-first birthday. The first president, Dr. H. M. Tory, of the president of the National Research Council of Canada, and the first premier of the province, Hon. A. C. Rutherford, participated in the anniversary ceremonies.

Males For Unemployment

One of the causes of unemployment in Europe is that our working lives have been prolonged, declares a statistician. At one time, he says, workers at forty" was the cry throughout the world, but we have now found that we are not too old at 60 or 65.

WINDOLITE The Improved Glass Substitute

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical science has definitely proved that from the point of view of Health and Hygiene, the most effective action the sun's rays, as the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. The invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, that it has a most beneficial effect on the growth and development of plants and chickens and that it is safe for use in all climates.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being tried in domestic and household requirements.

WINDOLITE stands for 100 per cent. sunlight. It makes light strong windows for cattle sheds, dairy sheds, poultry houses, brooders and all other buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used in verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings, etc. It keeps out cold and will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass weighs about 135 to 140 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, Lask, Toronto.

TAKE MEASURES TO COPE WITH LABOR PROBLEM

London, England.—Premier Ramsay MacDonald will preside over a cabinet meeting which will have the preparation of the King's speech from the Throne for the coming Parliament as its principal business. The domestic labor chief of interest will lie in the measures for meeting the unemployment situation. During the election campaign, Sir. H. J. H. Thomas, now Lord Privy Seal and minister of employment, gave some indications of Labor's unemployment plans by way of legislation.

These plans are two-fold, namely, 1. Raising the school age from 14 to 15 with allowance to parents. This is estimated to keep normally 400,000 out of industry for a year.

2. Supplementing the positions of the workers of more than 65 years of age, so that they will be able to retire. This, Mr. Thomas estimates, will eventually release the labor market of another 350,000.

In Scotland, where the percentage of those in receipt of poor law relief is greater than in England, steps were taken to explore the available employment. The Scottish board of health sent an urgent message to all municipal authorities in Scotland asking them to state if they had any ground suitable for road development in anticipation of these schemes and particulars were asked of the estimated number of men who might be employed, what the probable date of employment and the estimated cost.

While unemployment is the government's main domestic problem, it is expected the speech from the Throne will announce the appointment of a Royal Commission to inquire into the liquor trade.

In regard to mines, the government is likely to face an embarrassing situation. "Labor and the Nation," a pamphlet issued by the Labor headquarters, stating Labor's program, pledges the party to repeal the Conservative government's act which extended the miners' day from seven to eight hours. There have been urgent complaints that if it is not repealed the mining industry will be abandoned. "At the same time the officials of the Mines' Federation are demanding repeal of the eight hour clause. The executive of the federation are to meet the members of the government shortly after parliament opens.

Report Seeing Huge Meteor

Fell Into Lake Superior Says Prospector Near

Sault Ste. Marie, Ont.—A strange tale was brought down to the Soo from Michipicoten Island by Frank Koskic, prospector, that he had seen a huge meteor about the size of a ship fall into Lake Superior close to the island at 10 o'clock on the night of June 11. The meteor was seen from the island with the brilliancy of daylight and created a rumbling noise which was heard for two minutes after it fell.

Quite a sea arose after the meteor struck the water and the level of the lake rose appreciably.

Solved All Murders

London Police Report All Murders Solved In 1925

London, England.—Every murder committed in London in 1925 was solved and the culprit was convicted or took his own life, according to the official police report. The report of the commissioner of police showed that there were 18 murders of persons more than one year old. Eleven culprits were convicted and seven committed suicide, the report said.

Will Not Hesitate

Lynn, Mass.—"I don't intend to get out, and no power on earth can make me." This old stage star will have no effect on me," thus did Police Chief Thomas M. Burckes, who is in his 84th year and who has been a politician for nearly half a century, recently answer persistent rumors that he was about to resign.

National Wealth Grows

Ottawa.—The national wealth of Canada, exclusive of undeveloped natural resources, is placed at \$27,687,000,000 for the year 1927, in an estimate made public by the Dominion Bureau of Statistics. This is an increase of \$100,000,000 over the 1926 estimate.

Warning Was Disregarded

Cleveland Clinic Told In April That Film Used Was Dangerous

Cleveland, Ohio.—Making no attempt to fix the blame but pointing out that the Cleveland clinic had been warned of faulty X-ray stories, which cost 125 lives by fire and poison gases, April 15, Governor A. J. Pearce completed his inquiry after a month of investigation in a report on file with official county records.

The warning was sent to the Ohio inspection bureau of the fire underwriters' investigating service last April. It called attention to the fire hazard in the type of film used at the clinic, urged use of another kind and advised clinic officials that the film, if burned, would generate great clouds of noxious fumes. The film was stored in the basement and was ignited by a means not determined in the investigation.

The report placed the official number of dead at 125. They were killed by a combination of nitrogen peroxide gas with carbon monoxide the coroner said.

Confesses To Bank Theft

Eighteen-Year-Old Youth Pleads Guilty In Vancouver

Vancouver.—Arthur Thomas, 18, pleaded guilty in police court to a charge of robbing the Grandview branch of the Royal Bank of Canada, and electing summary trial.

Thomas, who held up five bank employees a shy case to work, was arrested in New Westminster a few days later and paid up the stolen money recovered.

The bank was held up as its manager, Mr. Logan, and four other employees were arriving to commence work for the day. Each was accused as he entered and trussed him with cutting bands. He forced the manager and cashier to open a vault from which he seized money and then he bolted by way of a back entrance. He left his prisoners in a cubicle, the door of which they broke down shortly after his departure.

Prepare For Another Election

Liberal Party In Britain Sees Possibility Of Another General Election

London, Eng.—The possibility of another general election in Great Britain at no distant date is being taken into account by the Liberal party, which holds the balance of power in the new parliament. The administrative committee passed a resolution moved by Sir Herbert Samuel, chief organizer, "to maintain and strengthen the organization in the constituencies."

It was also resolved that "whenever an appeal is made to the country the Liberals will again be prominently contacted by the Liberal party."

Health Authorities Conduct Investigations

Hundred People In Bowmanville, Ontario, Suffer From Phosgene Poisoning

Bowmanville, Ont.—Health authorities are taking extra precautions and conducting investigations as the result of the second outbreak of phosgene poisoning here in four days, during which over 100 persons have been affected in varying degrees.

The first outbreak occurred when scores of children and adults were poisoned by contaminated milk. The second and more violent cases occurred at a Sunday school entertainment and supper. These attacks are believed to have caused the outbreaks.

Gets Month's Reprieve

Ottawa.—A reprieve until July 19, has been granted to John Ivanuchuk, convicted of murder, who was sentenced to hang on June 21. Cabinet having considered the case, has decided to put the execution off for a month. In the meantime it is expected that new evidence bearing on the case will be submitted to the federal authorities for consideration. Ivanuchuk was convicted of the murder of Lucienne Esposito, Harry Constable at Cheshire, Ont.

Forty Believed Drowned

Bogota, Colombia.—Forty persons are believed to have drowned and more than 100 injured in the probably total destruction of the town of Revilla by floods from the Quilaque river after a landslide from a hill into the river had caused it to change its course. Revilla, which is in the department of Cauca, had about 4,000 inhabitants.

May Revise Tariff

Dramatic Changes Considered By Dominion Government Is Report

Toronto.—The Toronto Globe publishes the following dispatch from its Ottawa correspondent:

"Tariff changes which will have a revolutionary effect on Canada's external trade, are under consideration by the Dominion cabinet. In response to demands from all parts of the country for action, the government is taking preliminary steps toward what will undoubtedly be the most drastic revision of fiscal policy of the present century."

"Present prospects are that the vital changes will take the form of a material increase in the British preference. If not, the inauguration of complete 'free trade' on the bulk of British or Empire goods, while the general tariff, which applies to imports in the United States will remain stationary."

DRIVE AGAINST RUM RUNNERS ALONG BORDER

Windsor, Ont.—With a warning by Attorney-General Price, that crime would not be permitted within the borders of the province, the Windsor and the United States blockade tightening, rum runners are continuing their activities along the border.

Reports told of feverish activity at the export docks as cargoes of liquor destined for United States river and lake ports were being shipped.

Announced by the reports of the kidnapping of a newspaper photographer and revolver battle between rum-runners and a United States custom patrol cutter, Attorney-General Price announced that if necessary he would double the provincial police along the Windsor-Niagara Falls sector to protect Canadian citizens.

It is along this section of the border that the battle lines are most closely drawn due to recent strengthening of the United States preventive forces.

As a result of the statement of the attorney-general, the rum-runners may find their activities along the Canadian side of the line more restricted. The attorney-general was emphatic that crime would not be permitted within the borders of the province.

Meanwhile, reports from border police indicated that, despite the drive against the rum-runners, activity at the border export docks continued. Rum-runners were reported active at many points.

A party of rum-runners engaged in a pistol battle with a United States customs patrol cutter, the cutter being forced to return to port after being peppered with bullets, while the rum-runners retreated to the Canadian shore.

Two men, who were apparently armed with pistols, were arrested when a United States coast guard captured a motor boat active at many points.

Two recent developments were placed before Dominion government officials. The department of external affairs received a report on the incident at Sandwich when it was claimed a private speed boat, not engaged in the liquor traffic, was fired on by a United States patrol boat, should further investigation warrant, the department will investigate this affair.

The department of national revenue was notified of the kidnapping of the photographer of a local daily newspaper last September. It was expressed that it did not come within the scope of the department.

IN BRITISH CABINET

Lindbergh Sends Message Of Congratulations To Trans-Atlantic Flyers

Paris.—Jean Assemblée, Rene Leveque and Armand Lottz, Jr. received by cable congratulations from Col. Charles Lindbergh, for their transatlantic flight from Old Orchard Maine, to Cullinass, Spain, in the Yellow Bird.

The colonel's message, addressed to all three of the aviators, said: "On returning to New York I have just learned of your successful crossing. Please accept my sincere congratulations and best wishes."

The French press immediately exclaimed him in reply.

"We thank you heartily for your affectionate telegram. Our greatest claim to glory has been to have followed the route you traced two years ago with incomparable mastery in your flight from New York to Paris."

"Your magnificent example of courage, of tenacity, of science as a pilot and navigator guided us every minute of our route. We address to you our most cordial and respectful salutations."

Alberta Adds Old Age Pension

Movement Now Accepted By All Provinces In West

Ottawa.—Answering the communication of Hon. Peter Hoeman, minister of labor, informing them that an order-in-council had authorized the extension of Canada's old age pension act to Alberta for an old-age pensions scheme, the government of that province today telegraphed acceptance of the plan.

When the Dominion cabinet meeting approved the scheme for Alberta, Hon. Hoeman stated immediately and the reply came back to him within a short time of Alberta's notification. Alberta will adopt the pension system starting August 1, 1929. British Columbia, Saskatchewan and Manitoba have for some years enjoyed the old age pension scheme. Alberta's entry into the scheme links up the entire west in the movement.

Will Enter Competition

Canadian Mounties To Enter Rifle Matches At Camp Perry, Ohio

Washington.—Four Royal Canadian Mounted Police will compete in the National Rifle and Pistol matches at Camp Perry, Ohio, in August. The Canadians, the highest in 1929 revolver team competition, will be against United States entries in the international police pistol match August 21. The men are Corporal A. D. Ford, D. E. Forest and J. G. Pelletier, of Lethbridge, Alta., and Constable J. O'Connell, of Ottawa.

Women Writers Elect Officers

St. John, N.B.—Mrs. Margaret Lawrence, of St. John, was elected president of the Canadian Women's Press Club, at the concluding session of the annual convention, Western provinces, at the Hotel Robt. Mrs. Miss Elizabeth Long, of British Columbia, Miss Winnifred Lee, Alberta, Miss Evelyn Murphy, Saskatchewan, Miss Clara Holmes.

Sacrifices Life For Child

Kingston, Ont.—Kenneth McFlaw, the four-year-old child of whom Fred Denys sacrificed his life by hurling himself from the wagon he was driving on the highway five miles from here to sweep the child out of the path of an oncoming auto, died in hospital several hours later, never recovering consciousness after being struck by the machine.

Trotzky Would Enter U.S.

Constantinople.—Leon Trotzky, called Soviet leader, intends to apply to the United States government for permission to enter the country, according to reports current here.

Prince at Garden Party

Prince Henry, third son of the King, receives at a garden party held in Victoria, B.C. Lieutenant-Governor Randolph Bruce is on the right and Miss Helen Mackenzie, the latter's niece, on the left. The Prince is returning to England by Canadian Pacific Steamship and Railway from Japan.

Cabled French Airmen

Lindbergh Sends Message Of Congratulations To Trans-Atlantic Flyers

Paris.—Jean Assemblée, Rene Leveque and Armand Lottz, Jr. received by cable congratulations from Col. Charles Lindbergh, for their transatlantic flight from Old Orchard Maine, to Cullinass, Spain, in the Yellow Bird.

The colonel's message, addressed to all three of the aviators, said: "On returning to New York I have just learned of your successful crossing. Please accept my sincere congratulations and best wishes."

The French press immediately exclaimed him in reply.

"Your magnificent example of courage, of tenacity, of science as a pilot and navigator guided us every minute of our route. We address to you our most cordial and respectful salutations."

WILL NOT FOLLOW LEAD OF U. S. IN SHAPING TARIFF

Grand Bend, Ont.—Independence

action on tariff is the policy of the government, and upward revision of tariff schedules by the United States is regarded as a matter entirely for the consideration of the United States. The tariff is a matter of national revenue, which is the province of the Dominion. This was the opinion of Hon. J. A. Lapointe, minister of justice, Hon. J. C. Elliott, K.C., minister of public works, and Hon. W. D. Elder, minister of national revenue, who spoke at a picnic here under the auspices of the South Huron Liberal Association.

Mr. Lapointe made extended reference to policies advanced by Hon. R. B. Bennett, Conservative leader, at present on a tour of western Ontario.

"The remedy he suggests is that we should adopt American methods in our fiscal policy," Mr. Lapointe said. "Our ideas and ideals are Canadian and British, and we would follow American methods, we will not follow American ideas."

PREDICTS WHEAT PRICES WILL BE HIGHER IN 1929-30

Washington.—Using condition reports received from all over the world, the United States Department of Agriculture announced that, exclusive of Russia and China, a world wheat crop five per cent smaller than last year was to be expected for the 1929-30 season.

This reduction, the department said, would probably more than offset the 1928-29 carry-over and "it therefore seems likely that the world market price for wheat through the 1929-30 season will average somewhat higher than they have through the 1928-29 season."

The department summary of prospects was made up from seeding, winter killing and areas remaining for harvest up to June 12. The area to be harvested was expected to remain approximately the same as that of the past year, but higher crop forecasts reported to date were expected to be more than offset by lower yields in Canada, Argentina and some European countries.

The carry-over, the department said, would likely be about 150,000,000 bushels, or about 10 per cent of the 1928-29 crop. The stock on hand July 1 last year, in the United States the carry-over may be as low as 22,000,000 or as high as 27,000,000 bushels, depending on how much will have disappeared, as feed or in other ways not accounted for.

The year ending with an estimated crop of 903,000,000 bushels and a carry-over of 129,000,000, making the domestic supply 1,032,000,000 bushels. Exports to July 1, were estimated at 100,000,000 bushels as compared with 200,000,000 bushels exported last year.

Fatal Airplane Crash

Three Men Dead When Soplane Plunges Into Lawrence River

Montreal.—Captain the Hon. J. C. Jervis, M.C., 32, elder son of Lord St. Vincent and former aide-de-camp to the Governor-General of Canada, and two companions, were instantly killed when a seaplane crashed in the Lawrence River between Point St. Charles and St. James Island.

Other victims were Pilot C. S. Caldwell, of the Canadian Vickers, and Dr. Wm. D. Morris, 28, of Montreal.

The plane was flying down the river at a very low altitude when it struck two high tension wires carrying electric power from the city to St. James Island.

According to eye-witnesses there was a burst of flames just as the seaplane crashed into the water and turned over.

Rescue parties were quickly on the scene, but without the necessary facilities for getting the bodies up to the shore. The bodies of the three men were taken out. Two hours later, the body of Captain Jervis was recovered.

Dr. Morris came here two years ago from Victoria, B.C., where his parents reside. He was graduate of the University of Alberta and McGill.

Experiment Fails

Hong Kong.—Army aviators carried out rain making experiments above Hong Kong, dropping a chemical known as "Doolin," from the plane, but the rain was not successful. Hong Kong is suffering from severe water famine necessitating drastic action to replenish its supplies.

Air Line Crash

Lloyd, Brier.—The coroner's inquest on the air line crash at the air line of Ottawa's crash into the channel, returned a verdict that the persons had lost their lives by descending into the water, the fall of the aeroplane into the channel.

Lacks Authority

Ottawa.—The exchequer court has given judgment that the Sun Life Company has no authority under its charter to increase its capitalization from \$2,000,000 to \$4,000,000. The judgment has been issued by Mr. Justice McLaughlin.

Receives Honorary Degree

New Haven, Conn.—Vernon Maynard, Canadian Minister in Washington, had conferred upon the honorary degree of laws, by Yale University.

EDITORIAL

Scottish Generosity
Anly, the Scotchman, was to have delivered 20 hens to market one morning, but when they arrived, there was found to be only 18. Finally, late in the afternoon, the last hen was delivered. When asked about the matter, Anly replied: "The dum-hon alma lay its egg 'till just now."

One of the longest days has passed. Soon the days will be as short as the man looking for money in an old discarded vest.

Sometimes when we get a little discouraged, as all mortals do, some

good friend drops in and says "My Mc-Drig, is the best I ever used," and all your troubles are forgotten.

The average man's life is now divided into two parts: radio and inner.

The Harvestor Company maintains huge stocks of repair parts for all their branches. The dealer keeps complete stocks of all the commoner parts. Some of these are not called for once a year, but we must keep them to maintain our advertised brand of service. It costs money to do this, but we consider it our duty to our customers.

The only time a groom attracts much attention at a wedding is when he fails to appear.

Harvesting and threshing become a family affair on the farm equipped with a Mc-Drig, Windrow Harvester and Combine.

You shouldn't kick about being a little "under the weather" when this old earth of ours has been that way since the beginning.

We have an excellent buy in a 1929 Chevrolet coupe. Let us show you this car. We also have a good buy in a 1929 Ford coach.

ALBERTA.

"Good Equipment Makes a Good Farmer Better."

LOCAL AND GENERAL

Champion Elks Sports and Carnival--July 1 and 2.

Buster Stoddard is a visitor in town.

Harry Smith took a truck load of hogs to Calgary during the week.

Miss Genevieve Harper of Calgary is visiting in Champion and district.

Mr. and Mrs. G. Linden of Palouse, Wash., are visiting relatives in this vicinity.

While in town H. L. Seymour assisted in selecting the site for the new United Church.

Mr. Stephenson is visiting his sisters, Mrs. D. Watkins and Mrs. R. J. Cowell.

Mr. and Mrs. Guy Dow and children left for Maine to spend the summer months.

Mr. and Mrs. Sletto Sr. are on a visit to their sons, arriving here from Spokane recently.

H. Frame leaves on July 1st for Brant where he will take charge of the Pioneer elevator.

Mrs. Depue, Mrs. McIntyre and Mrs. Harry Smith were visitors to Lethbridge this week.

The National elevator is being overhauled and its capacity increased by a crew of men now located here.

The Byrne and Baddelley shows arrived here on Thursday night and are preparing for the celebration on July 1 and 2.

H. E. Johnson and Mr. and Mrs. Geo. Depue motored to Calgary this week bringing back Miss Leola Johnson from St. Hilda's college.

J. Doyle was the lucky winner of a prize in the English Derby amounting to \$85. The sweep in which he was interested paid a total of £31,000 in prizes.

Miss Barclay, former teacher here, accompanied by her mother and brother was a visitor on Sunday renewing old acquaintances and admiring the progress made in school building, etc.

Mr. and Mrs. Hoskins, Mr. and Mrs. Beaubier, Mr. and Mrs. Moffatt and Mr. and Mrs. Watkins left for Calgary on Thursday to attend the funeral of little Shirley McKibbin, two year old daughter of Mr. and Mrs. A. L. McKibbin, who passed away on Thursday morning in the General hospital, Calgary, following an operation.

Champion Oil Well

Down 1540 Feet

Champion No. 1 well, being drilled by the Alberta Gas & Fuel Co., is now at a depth of 1540 feet with drilling proceeding rapidly. The geological indications are all very favorable to the presence of oil at a reasonable depth.

Crops Excellent

Rain Needed Soon

Crops of every kind have made rapid progress during the past week and are in splendid shape. J. D. McDougall is credited with spring wheat 24 inches high, heading out, and Geo. Walden has wheat 20 inches high also coming into head. Fall wheat and fall rye are at the filling stage and are splendid crops. Despite the plentiful moisture the very heavy growth is rapidly exhausting this rain is again in demand. A. Roggie of the Gauss Ranch reported rain very desirable in this district but at other points the crops are not suffering as yet. The weather has been very favorable to growth for some days.

Goetz-Smith

A wedding of much interest to Championites was solemnized at the home of the Rev. W. E. MacNiven, Calgary, on Tuesday, June 25th, at 7 p.m. when Rachel Alberta Smith, daughter of G. F. Smith and the late Mrs. Smith of Champion became the bride of Alex Goetz of Calgary. The bride was attended by Miss Beth Smith of Calgary and Mr. Cecil Schults supported the groom.

The Bay-Marland have abandoned shallow test well drilling for the present in the local field.

Note advertisement of Carmanagay Agricultural Society Picnic elsewhere in this issue.

Alex. Lyons' Hudson car was badly damaged while parked on the street on Sunday.
